

The Cocktail Lab

Welcome to D'Amico's The Continental American Provisions & Craft Bar.

The Continental Craft Cocktail Lab focuses on classic, Prohibition-era tipples that have stood the test of time. These cocktails combine simplicity and elegance, using a specific recipe model that include all the components of a balanced cocktail-spirit, citrus, sugar and bitter-resulting in an intriguing overall drinking experience.

Our Craft Cocktail menu pays tribute to these time-honored recipes while also reinventing and experimenting with different ingredients and proportions to create new and exciting cocktails.

We are pleased to present you our Craft Cocktail menu composed of modified Classics and Continental Originals; hand crafted with precision using fresh juices, house-made bitters, syrups and infusions. We invite you to explore the different flavors and let our staff guide you through a new cocktail experience.

The Beef

Iowa Premium Black Angus Beef provide superior beef products to satisfy the most discerning of palates. Family farmers strive to conserve and protect our natural resources while raising cattle with compassion, care and humanity. Here at The Continental, we serve USDA Certified Prime Black Angus sustainably and responsibly raised corn-fed beef, resulting in tender and flavorful meat. Iowa Premium cattle exhibit higher quality marbling the key indicator of beef's flavor, tenderness and juiciness.

Certified Piedmontese beef is unlike any other. An exceptional breed of naturally genetically superior cattle combined with a disciplined approach to animal care and husbandry, produces a consistent high quality product that is extraordinarily lean and incredibly tender. This double muscled cattle is never subjected to hormones, growth steroids or animal by-products. It is rich in protein and nutrients and very low in fat and calories. Fact: 3.5oz of Certified Piedmontese beef has half the amount of cholesterol and calories than 3.5oz of roasted chicken.

Rangers Valley is highly marbled Wagyu, dry aged by our 5th generation butcher. The dry aging process tenderizes the meat and delivers a true melt in the mouth experience with a increased taste profile for our diners. The cattle have a minimum 360 day white grain, straw, corn silage & molasses diet after being field raised on mother's milk. The Wagyu beef is free of antibiotics, growth enhancers, steroids, and hormones. Australian Marbling Score system means a well-established and benchmarked consistency that's independently assessed and mirrors the Japanese system.

Snake River Farms American Wagyu Beef combines the buttery marbling of Japanese Wagyu and the robust beef flavor that American beef is known for. Raised along the high plains of the Snake River in Eastern Idaho, Purebred Wagyu from renowned Japanese bloodlines are bred with traditional, high-quality beef animals forging a herd that is in a class by itself. Fed an all-natural, sustainable diet of local Northwest ingredients, including Idaho potatoes, soft white wheat, corn and alfalfa hay, Snake River Farms Beef offers superior beef with a reduced carbon footprint to the eco-conscious consumer.

Japanese Wagyu A5 is the most highly marbled and most expensive beef produced in the world. This most prized Wagyu, is judged on four different criteria: marbling intensity, color of the fat, color of the muscle tissue, and shape of the muscle. A5's smooth and velvety texture will linger on your palate and provide a one of a kind experience. Kobe or Wagyu? Kobe is actually a prefecture, or state, in Japan where Wagyu is produced.
